ReArm Super Bond

(Formerly known as MYK Bond EBA)

EpoxyResin Based Concrete Bonding Agent

Product Description

• ReArm Super Bond is a solvent free epoxy resin bonding agent, which is supplied as a two pack component in reweighed quantities for ready to mix and use condition.

Uses

- For all areas where bonding is requires for old to new concrete
- It is ideal for the extensions and structural repairs in structural concrete buildings, bridges, roads, loading bays etc.
- Used for vertical and horizontal surface where mortar and concrete can be supported by form work for jacketing

Features and Benefits

- High Bond Strength for old to new concrete
- Can be used for critical areas, on Damp Surfaces.
- Can be used for horizontal & vertical surfaces
- Extended pot life for better working time

Application Method

Mixing & Application:

Stir the Hardener and Resin individually with drill mixer of proper size. Then add the entire content of the hardener into Resin container stir the two components thoroughly using a low speed mixer (300-500rpm) for about 2 to 3 Minutes until a uniform color of the mixture is obtained. The mixed ReArm Super Bond should be applied by brush properly and evenly over the well prepared surface. The new concrete has to be placed within 6 to 8 Hrs depending on the temperature.
